Applications :

For general bonding of metal plates, plastic plates and foam.

Uses:

- Bonding of cushioning and sealing materials in: Printers, Copiers, Televisions, Other office equipment and home appliances.

TEFLON TAPES

923S

903UL

Application for 923S

- For roll wrapping in polyethylene laminator
- For insulation of coils as a class H insulating material.
- Orange PTFE tape and use oriented polytetrafluoroethylene (PTFE) film as a based material. Single surface treated and coated with a silicone adhesive can prevent with high heat and friction resistance.

Applications for 975ZRS

- Heat insulation material under the veneer
- Heat packaging equipment
- Plastic machine, heat sealing machine, cutting machine, R machine, heating pipes, heat sealing machine, drying machine, dryer, hair dryer, dyeing, paper and printing, photocopying machines veneer materials.
- Heat insulation of electrical appliances and equipment.
- PCB, LCD manufacturing.
